

ELECTROVALVES

ELECTROVALVES **LPG**

The LPG solenoid valve EGAT1001 is a solenoid valve 12V for LPG systems, with brass body and high-efficiency internal filter, homologated ECE 67R-01.

Inlet and outlet connections M10x1 (6mm pipe)

Maintenance kit EGAT2050

TECHNICAL DATA

Material	Hot forged brass CNC machined	
Weight	490 g	
Type of product	LPG solenoid valve	
Working temperature	-20° C/+120°C	
Solenoid valve	Coil voltage	12 V DC
	Coil power	11 W
	Electrical connection	faston

Copper pipe connection with 6 mm pipe thread M10x1

Accessories for LPG ELECTROVALVES
